CQ6 Battery Promotion — Terms & Conditions

Effective 29 October 2026

Promotion summary

Every eligible residential battery system with **3 or more CQ6 batteries** comes with **1 CQ6 battery free**. To keep the offer, the customer must make the **70% payment before 31 December 2026** and be ready to install within **2 months**. Stock is limited.

1. Promoter and promotion period

1.1 This promotion (the "Promotion") is run by Verdant Solar Sdn. Bhd. ("Verdant", "we", "us").

1.2 The Promotion runs from 30 October 2026 until **31 December 2026**, or until the CQ6 batteries set aside for the Promotion run out, whichever happens first (the "Promotion Period").

1.3 Stock is limited and allocated on a first-come, first-served basis, based on the date the customer has both signed the quotation and paid the booking deposit (whichever happens later). A battery is reserved only when both have happened. Once stock runs out, the Promotion ends even if the Promotion Period has not ended.

2. Who is eligible

2.1 The Promotion is open to residential customers in Malaysia who sign a Verdant quotation for a new battery energy storage system with CQ6 batteries during the Promotion Period.

2.2 The system must include **at least 3 CQ6 batteries**. Systems with fewer than 3 CQ6 batteries are not eligible.

2.3 The customer must meet both conditions in Section 4 (70% payment and installation timing).

2.4 The Promotion applies to new purchases only. It does not apply to battery add-ons to an existing system, or to quotations signed before 30 October 2026.

3. The offer

3.1 Each eligible system receives **1 CQ6 battery free of charge**. The customer pays for all other batteries in the system.

3.2 The free battery is limited to **1 per system**, whatever the number of batteries installed.

3.3 The value of the free battery is already deducted in the quotation price. No further deduction will be made.

3.4 The free battery cannot be exchanged for cash, credit, another product or a price reduction, and cannot be transferred to another person, system or address.

4. Payment and installation conditions

4.1 **70% payment deadline.** The customer must pay 70% of the total system price, and we must receive it, **on or before 31 December 2026**.

4.2 **Installation timing.** The customer must be ready for installation within **2 months** of the date the customer has both signed the quotation and paid the booking deposit (whichever happens later), and must give site access on the agreed installation date.

4.3 **If a condition is missed.** If the 70% payment is not received by 31 December 2026, or the installation is delayed beyond the 2 months for reasons on the customer's side, the Promotion

lapses. The order will then, at Verdant's choice, either be re-quoted at standard prices based on the products available at that time, or be void.

4.4 **Delays outside the customer's control.** Delays caused by Verdant, TNB, SEDA or other approving authorities do not count against the customer, as long as the customer has met 4.1 and is ready on their side.

5. Pricing and other offers

5.1 The Promotion can be combined with Verdant's standard payment discounts in force at the time of quotation (currently for cash payment or EPP). These discounts are calculated on the price after the free battery has been deducted.

5.2 The Promotion can be combined with all other Verdant promotions in force at the time of quotation, including the SuRIA Rebate Guarantee. Promotions introduced later apply only if Verdant states so in writing. Any government rebates or incentives depend on government policy and the customer's own eligibility. Verdant is not responsible for whether they are granted, their amount or their timing.

5.3 Add-ons and accessories are charged at the standard price.

6. Changes, cancellation and refunds

6.1 If the customer changes the order so that it has fewer than 3 CQ6 batteries, or switches to another battery model, the Promotion no longer applies and the order is re-quoted at standard prices.

6.2 If the customer cancels the order, cancellation and refunds follow the terms of the customer's sales agreement. The value of the free battery is not refundable in cash or credit.

6.3 Batteries added to the system after installation are charged at the standard price. The free battery applies only to the original order.

7. Battery capacity and warranty

7.1 Each CQ6 battery has a nominal capacity of **5.99 kWh** and a usable capacity of **5.12 kWh**. Actual usable energy depends on operating conditions and settings.

7.2 The free battery is a new unit. It carries the same manufacturer's warranty and Verdant workmanship warranty as the other batteries in the system.

7.3 Verdant may install CQ6 batteries from any batch in its stock, as long as they are new and covered by full warranty.

8. General terms

8.1 Verdant may change, suspend or end the Promotion, or these terms, at any time with notice on Verdant's website. Changes do not affect orders that already meet all the conditions at the time of the change.

8.2 Verdant's decision on eligibility and on any matter related to the Promotion is final.

8.3 These terms apply together with the customer's sales agreement. If they conflict, these terms apply to the Promotion only.

8.4 These terms are governed by the laws of Malaysia.
